

## Features

- Patented and patents pending detectable warning products, manufactured in the USA by ISO 9001 and 9002 Certified companies
- Truncated domes, coated with durable, UV stable, skid resistant coatings
- Products provide reliable tactile detection in concrete or asphalt for many years
- Tiles are quickly embedded in fresh concrete or asphalt and are securely fastened by patent pending designs that do not require weights or tools of any type
- Products are compliant with the American Disabilities Act (ADA), ADA Accessibility Guidelines (ADAAG), Federal Highway Administration and as mandated by the U.S. Department of Justice (DOJ)
- Fast and Efficient Installations

## *ADA Compliant Highly-Durable Warning Products*
